

Hi! Please visit my portfolio website at:

<https://anzegrcar.portfolial.com/>

I am Anze Grcar, 34-year-old online entrepreneur from Slovenia with over 13 years of experience, specializing in a broad range of digital skills.

From Organic and Paid Marketing to SEO, Social Media Management (SMM), Lead Generation, Content Marketing, Web Development, Email Marketing, Video Production, Digital Design, Social Media Growth (I specialize in YouTube), AI integration... I have developed deep expertise in the digital landscape.

I am subscribed to 50 different digital tools.

I currently manage six passive income business projects (each with different models and growth tactics) and am eager to take on new challenges and networking opportunities in freelancing.

My Past Works:

In the past 13 years of my online entrepreneurship activities, I have really tried, learned and delivered a lot! We can easily talk about around 50 launched businesses and side hustles, all with different business models, growth tactics, products, or services.

Why Freelancing?

I want to expand my digital portfolio but, most importantly, connect with people and work with them since all my running projects are based on solopreneurship.
